	<p>Mountaineering and Climbing Equipment</p> <p>‘PULLEYS’</p>	<p>UIAA 127</p>
<p style="text-align: center;">Foreword</p> <p>This UIAA Standard is only published in the English language version, which is the master text. For any validations in translation, the UIAA Safety Commission should be contacted via the UIAA Office in Bern, Switzerland.</p> <p>UIAA Standards are the only ‘globally recognized’ standards for mountaineering equipments. In order to prevent multiplicity, the UIAA collaborates with its partner in standardization CEN; and bases UIAA standard 127 on the European Standard EN 12278. The EN Standards in turn are based on the original UIAA Standards, the first of their kind in the world. Additionally the UIAA publishes pictorials for each of the standards in a user-friendly way. This UIAA Standard 127 also has additional requirements over and above those in EN 12278.</p> <p>Owing to copyright restrictions, this UIAA Standard does not state the full requirements of EN 12278 to which it refers. Hence it is necessary to obtain a copy of EN 12278. The procedure for purchasing the EN Standards is included at the end of the text of this standard. The UIAA Standards are reviewed at intervals to see whether they meet the latest technical requirements and revised if necessary.</p> <p>The UIAA invites manufacturers of mountaineering and climbing equipment worldwide to become members of the UIAA Safety Commission as Safety Label Holders. Members can participate in discussions on standard requirements, test methods and revisions thereof (see the "General Regulations for the UIAA Safety Label").</p> <p>A complete list of UIAA Standards for mountaineering and climbing equipment can be found on the UIAA website.</p> <p>The UIAA Safety Commission, which is responsible for the UIAA Standards, expects that the corresponding EN Standard will be updated to include the additional requirements of the UIAA Standard.</p>

1. General Remarks on the UIAA Trademark and UIAA Label

- 1.1. The UIAA Trademark (see section 5.1.) is copyright protected internationally. The UIAA Label is only given to items of mountaineering and climbing equipment upon approval of prospective label holder's application from the UIAA.
- 1.2. The procedure to be followed by a manufacturer, when applying for a UIAA Label, is laid down in the "General Regulations for the UIAA Safety Label Certification"

2. Requirements for Pulleys

- 2.1. The UIAA Label can only be granted for pulleys that meet all the requirements of EN 12278, with the following exception:
 - 2.1.1. No EN number required.
- 2.2. For the award of the UIAA Label, the following additional safety requirements shall be met:
 - 2.2.1. Safety Requirements
The pulley shall withstand a static force of at least 15 kN, applied to each sheave individually, without releasing either the rope or the steel bar in accordance with the test method in the relevant part of EN 12278.
 - 2.2.2. Test Method
The test method shall be as stated in the relevant part of EN 12278.

3. Demonstrating that the Requirements are met

- 3.1. The requirements of section 2.1. shall be satisfied by either
 - (a) a test report from a UIAA-approved test laboratory, or
 - (b) a Type Test Certificate from an EU Notified Body, together with any additional documentation or test report which may be necessary.
- 3.2. The requirements of section 2.2. shall be satisfied by either
 - (a) a test report from a UIAA-approved test laboratory, or
 - (b) a test report, which covers these particular requirements, from a test laboratory acceptable to an EU Notified Body.
- 3.3. In sections 3.1. (a) and 3.2. (a), every test shall be carried out on three items of production, and every item of production shall pass the test(s).

4. Information to be supplied

- 4.1. The information to be supplied (in accordance with EN 959:2007) shall be given in English, or at least in the language of the country in which the product is sold.

5. Attachment of the UIAA Label

- 5.1. For any model of mountaineering equipment, which has been awarded the UIAA Label, the UIAA recommends that the UIAA Trademark (see below) or the four letters "UIAA" be marked clearly and indelibly on each item sold in accordance with the branding guidelines specified in the "General regulations for UIAA Safety Label".

e-mail: office@uiaa.ch

- 5.2. In addition, the UIAA Trademark or the four letters "UIAA" may be included in the instructions for use and/or on a swing ticket as well as in catalogues and other publications of the manufacturer. In the last case, the illustration and/or the text must clearly apply only to the equipment which has been awarded the UIAA Label.
